ABOUT ME

Asifiwe Kasereka Jérémie is my name. I am a young entrepreneur, currently working at Fallax Vision as a Projects Manager and a software developer, and looking for new opportunities. I officially started my professional career in May 2018 and haven't stopped challenging myself since.

I believe in a redefined Neutral Web. I get great fulfillment in solving large complex problem with technology, and I am passionate about Software Development and Graphics Design. I have endlessly built my skills to separate what people think they want from what they deserve to have.

WORK EXPERIENCE

Software Developer

2022 - to date

Fallax Vision

I've challenged myself in many ways by leading our biggest projects mediafri.com and yetunews.com

Projects Manager

2018 - to date

The BeniTalk

Accepting a job at The BeniTalk was one of the best decisions of my life. Due to my invaluable contribution, I was quickly promoted to the position of project manager.

Co-fondateur & CEO

2019 - 2022

Fleed Tech Limited

Being among the co-founders of this company allowed me to acquire new skills. After a year of work, I was promoted to the position of Managing Director, a position I currently occupy.

EDUCATION AND QUALIFICATIONS

Duration	Institution	Degree / Award
2022 - 2023	Uganda Martyrs University (UMU)	Masters Degree in Project's Management and M&E
2015 - 2018	Uganda Martyrs University	Bachelor's Degree in I.T.
